Erasing the Memory of the Motor (Factory Reset)

ERASING THE MEMORY OF THE MOTOR - FACTORY RESET

There are two possible ways to reset the motor which will depend on the motor the customer has:

1. **Motor Option 1: 2 x cables protruding from motor head** - Press & hold the program button on the motor head until you get 3 jogs

2. **Motor Option 2: 1 x cable protruding from motor head** - Using the cable protruding, insert this into the hole between the charging port & antenna until you get 3 jogs

FLOWCHART FOR ERASING THE MOMORY OF THE MOTOR - FACTORY RESET

Start

Hold the program button on the motor head until the motor jiggles 3 times

End
