Glydea RTSModifying the Motor Speed

1. Enter Programming Mode

Move the curtain away from the end limits.

Press and hold Up and **my** buttons until the motor jiggles. The curtain will continuously open and close.

2. Change the Speed

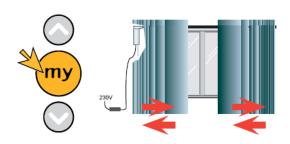

To decrease the speed, press the Down button.

To increase the speed, press the Up button.

3. Save New Motor Speed

Press and hold the **my** button until the curtain jiggles. The new speed has been confirmed.
