

## Q-Motion - Gen 2

### Pairing remote Control

1. If using a multifunction remote, ensure you select the correct channel first

2. Pull down on the bottom bar more than 50mm to enter Pairing Mode

3. Press and HOLD the UP button on the remote control to be paired

4. The blind will roll up to indicate successful pairing

5. If pairing does not occur, refer to the "Remove Battery Method" document
