Step 6:
Confirmation screen notifying that you have been sent an email

CONNEXOON RTS has now been activated.

Check your emails!

You have just been sent an email containing a summary of your CONNEXOON offer, and a link to your account. Click this link in the next 24 hours to complete activation of CONNEXOON. You will then be able to download and customise your application.

CLOSE THE WINDOW

Activating the Connexoon Window RTS

Step 7:

Go to your email to confirm Connexoon Window RTS activation

Step 8:

The screen below will appear. You can now proceed to login to the app

DO YOU WANT TO START USING YOUR CONNEXOON IMMEDIATELY?

Hello jordan

You have just activated your Connexoon at www.somfy-connect.com. Welcome! Just confirm your e-mail below, and everyday life gets much easier and simpler...

Confirm my e-mail

Now you just need to download the mobile app (iOS or Android) to connect your equipment in a few clicks. Oh, if everything could be as simple as Connexoon! Always connected with your Somfy team

You have just completed CONNEXOON WINDOW RTS activation

You can now enjoy your CONNEXOON application on your smartphone.

Launching the App

When you first open the app, enter the email address and password that you have defined during the activation of your Connexoon Window RTS.

Launching the App

After the first connection through the login page, the user has to enter user name which can be changed later (menu/ my account / user name) and location of it's home (where the box is installed).

Welcome to the Connexion **WINDOW RTS** application.

Through it, control all your RTS roller shutters, interior roller blinds and more.

Please, fill below your user name which will be used in the dashboard. If necessary, you will be able to modify it, at any time in MY ACCOUNT menu.

User name

Fill manually the location of your home, or press on the target button, to get automatically sunrise and sunset times:

Latitude Longitude

47.8590 3.2992

validate

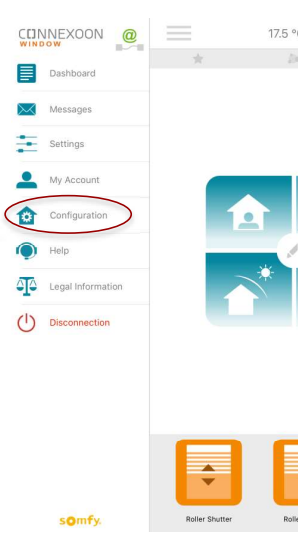

User Name: When the user opens the box for the first time, Connexion Window RTS prompts to enter a name. This allows to differentiate users in case of multiple persons connected to the same box. On the dashboard, users names are displayed for each action, allowing to see who did what.

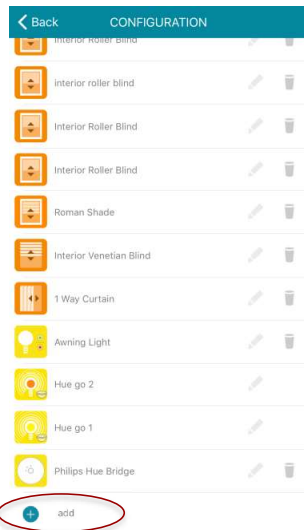

Location of the home: automatically receive sunrise and sunset time of your homes location. The location is also used to display weather data of your house.

Add RTS Equipment 1/2

Step 1

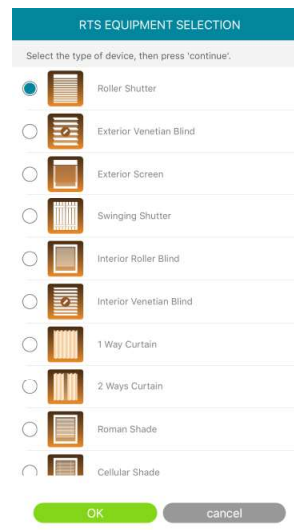

Step 2

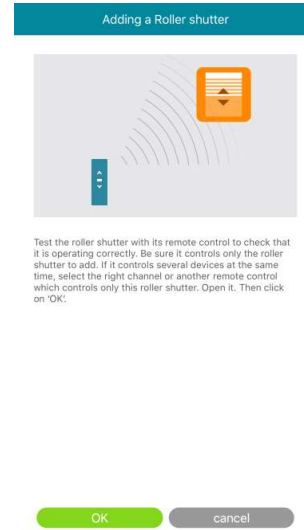

Step 3

Step 4

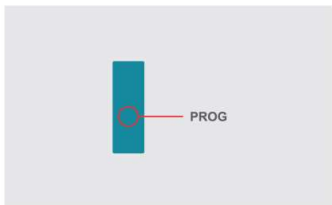

Step 5

Add RTS Equipment 2/2

Step 6

deleting a Living Room

Press the PROG button (approx. 3s) on the back of your remote control until your equipment moves back and forth. Then you have 2 minutes to click on 'delete'.

delete

cancel

Step 7

Adding a Roller shutter

Test its connection by clicking the 'test' button below: the roller shutter closes during 5 seconds.

Test

Step 8

Adding a Roller shutter

- If your roller shutter has closed, click on 'OK'.
- If your roller shutter has not moved, click on 'restart' to repeat the procedure.
- If your roller shutter has still not moved after several attempts, click on 'abort': if you have problems, you can also refer to the manual of the roller shutter motor.

OK

restart

Step 8

Adding a Roller shutter

Your roller shutter has been added successfully.

Set a name for your new roller shutter. Then, click on 'OK' to finalise.

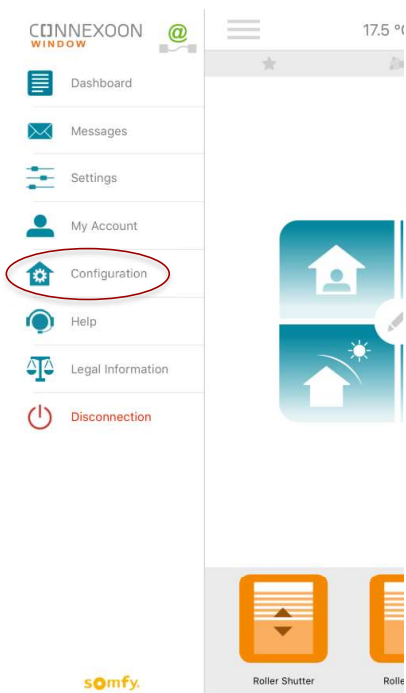

Roller Shutter

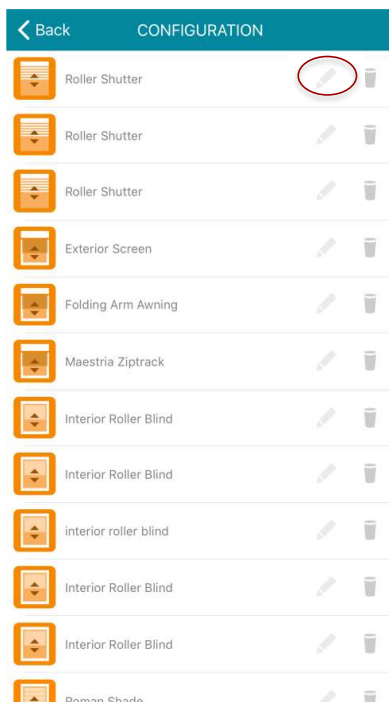

OK

OK

Home Page

Modes Page

Edition of modes

The modes page is the home page of the Connexoon app.

Press an icon to launch one of the 4 different modes:

at home, away, sun protection and privacy

Modes Settings 1/2

Press to launch the mode

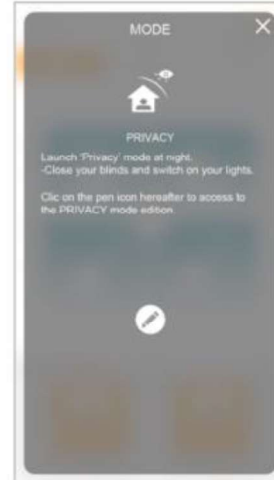

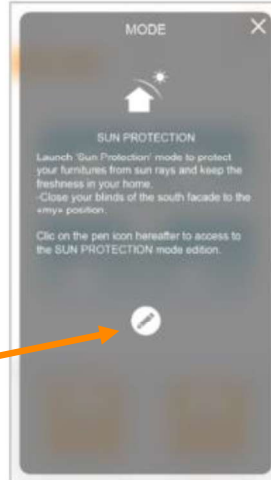

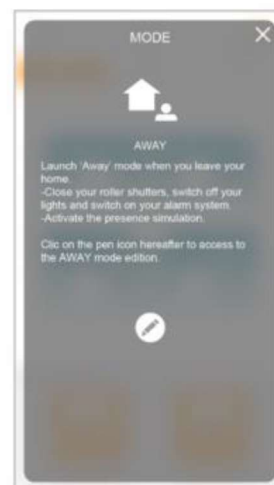

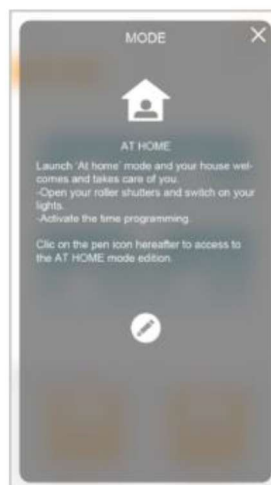

If the mode isn't set, press a display and the help screen will appear

Selection of the mode to edit
→ **NEXT PAGE**

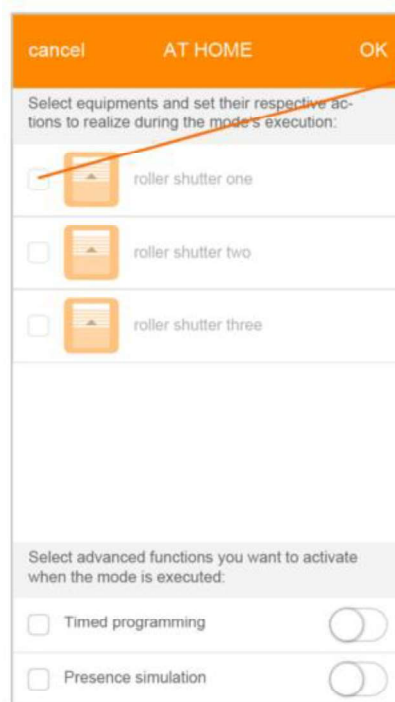

Back to home page

Direct access to edit the mode

Modes Settings 2/2

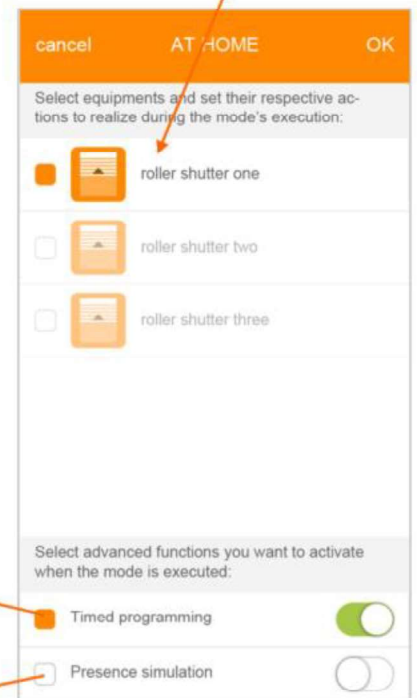

Selection of equipment which will react when the mode is launched.

Selection of an equipment and its respective position

Highlighted line's equipment with icon of the requested position.

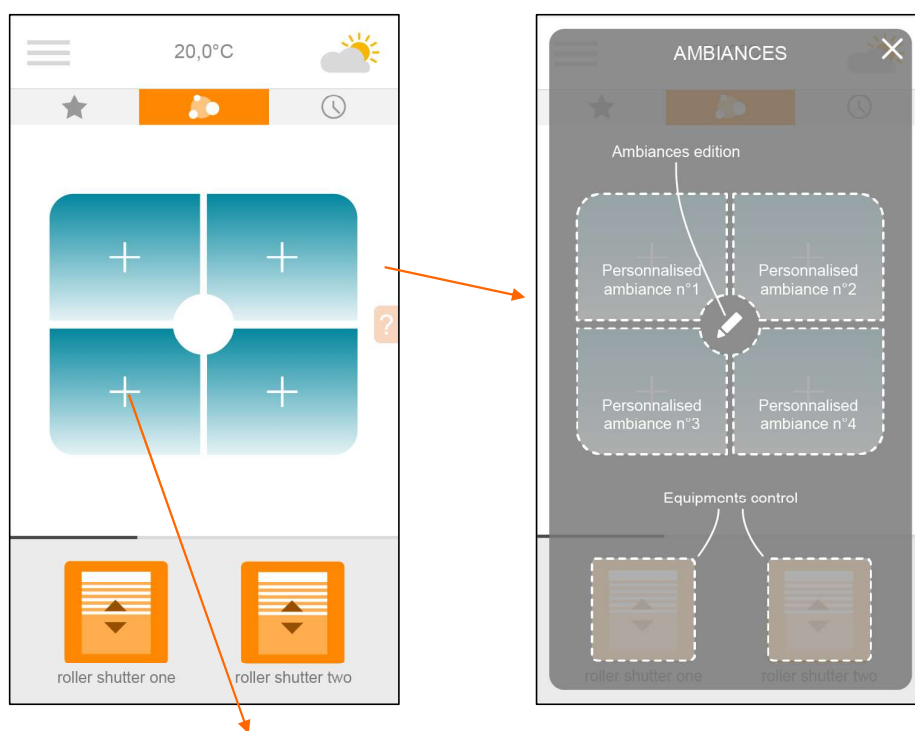

Timed programming:
- Not activated
- Activated and OFF
- Activated and ON

Presence simulation : ON or OFF.
Available only if the timed programming, above, is activated and ON.

Ambiance

The second main tab is the ambiance page which is composed of 4 ambiance/scenario icons. Pressing an icon launches RTS orders to activate the ambiance defined by a user.

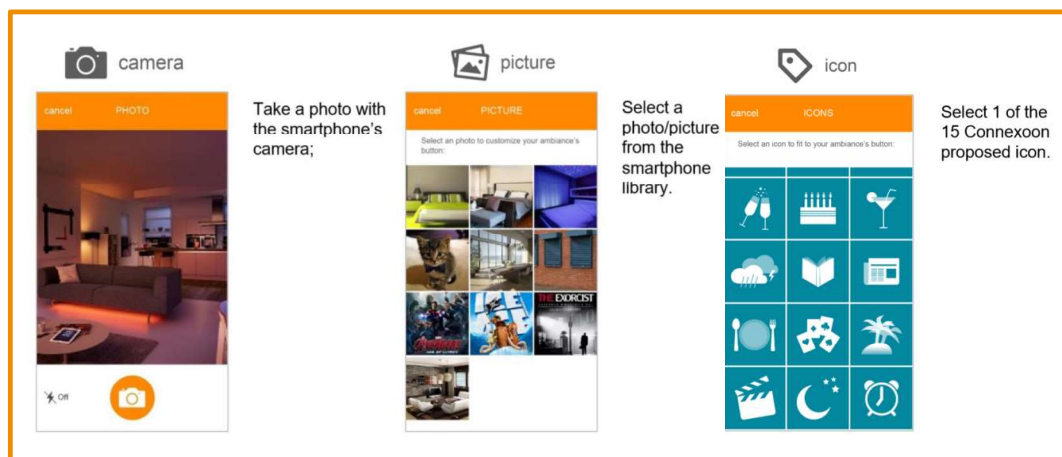

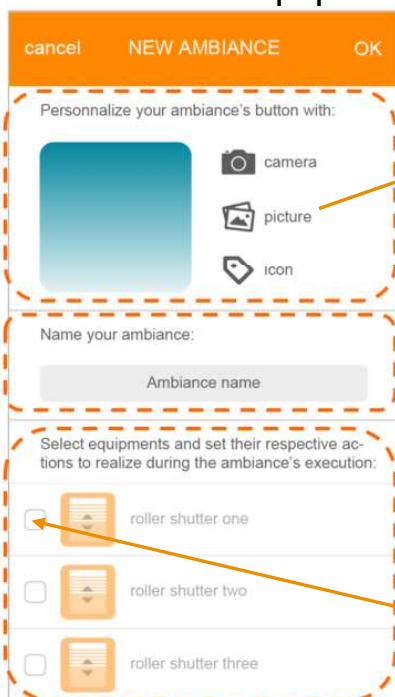

Select to edit the ambiance

Ambiance Settings

Three steps to set an ambiance:

- ☀️ Choose a picture, photo or icon
- ☀️ Name the ambiance
- ☀️ Select equipment and their respective action

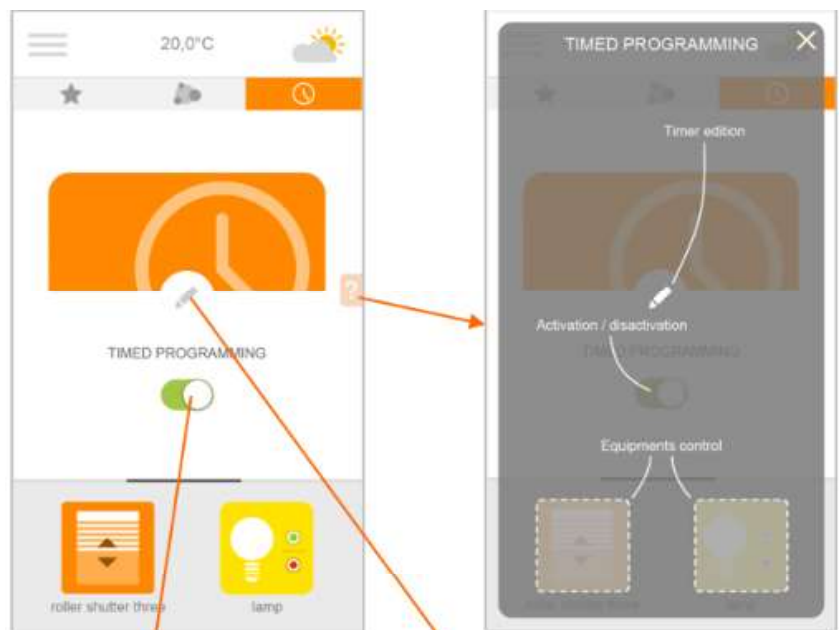

Equipment is added to the ambiance once the tick box is selected

Timer

The "Timer" function allows you to schedule any equipment.

Toggle  to turn on / off the Timer function.

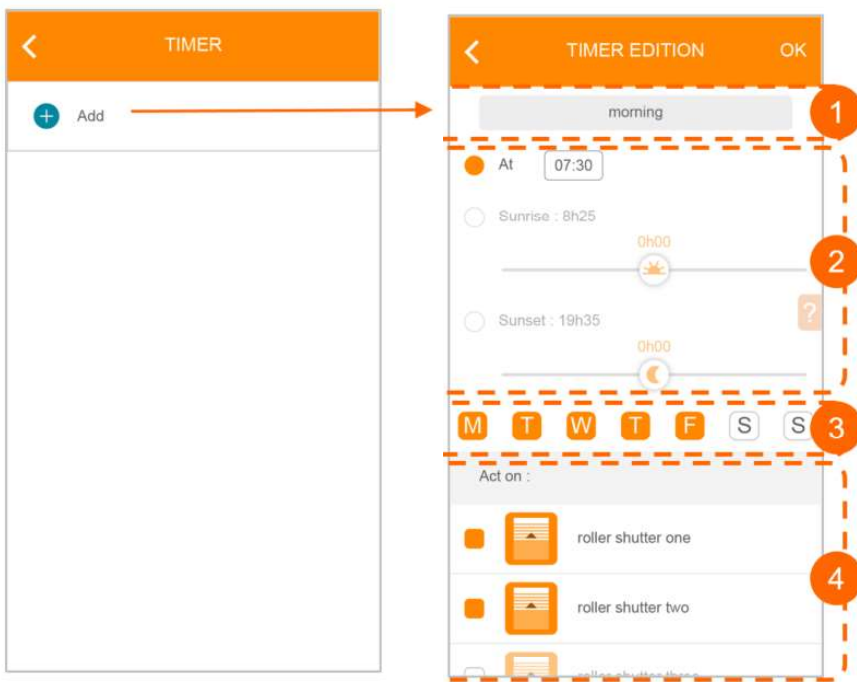

When it's off (white), it means the timer function is completely turned off regardless of the preference for individual setting.

*Global timer activation/ deactivation
Override the activation of all the
Timer set.*

*Edit timed programming
(continued next page)*

Timer

Note: Sunrise and sunset times are automatically updated based on the geographical location of the Connexoon Window RTS device

- 1 Naming of the timed program
- 2 Time settings
- 3 Days recurrence
- 4 Equipment selection

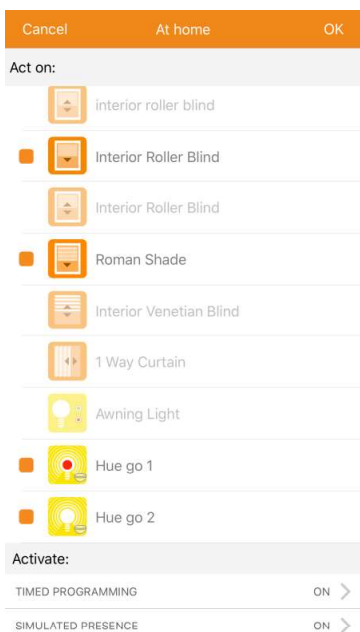

There can be a total of 8 timed programming's.

For each you can:

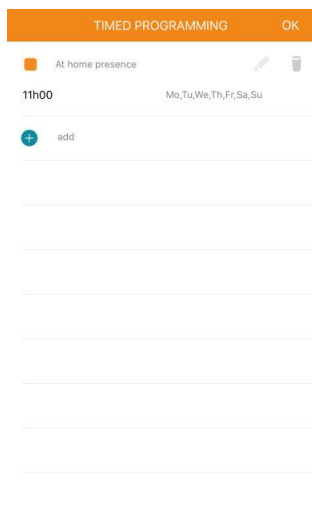

- activate/deactivate
- edit
- delete

Scenario Timed Programming

Step 1:
Open the scenario, mode or ambiance and select the timed programming to ON

Step 2:
Go to the timed programming screen and select edit

Step 3:
Edit the timing of the scenario
