

Q-Motion Fascia

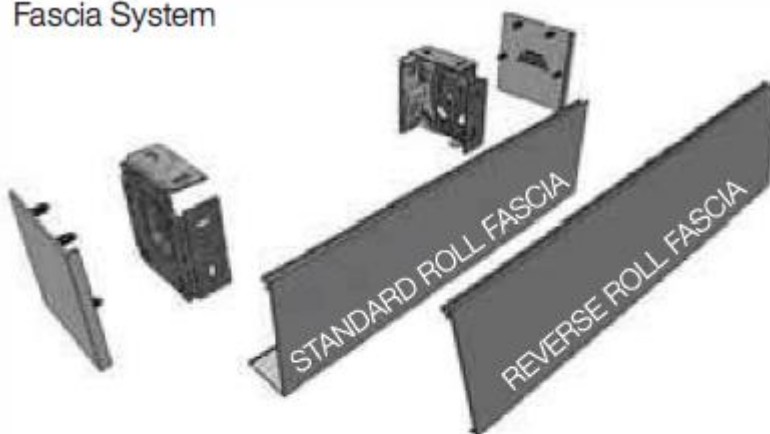

Features & Benefit

Finishing touches for a beautiful Q-Motion experience

Introducing contemporary, slim lined colour-coordinated fascia's which enhances both the form and function of the Q-motion Roller Blind. Easily mounted, fascia's attractively conceal the roller blind system while adding to the light protection your blinds were designed to provide. They are appealing and practical, all in one!

- Choose from 3 colour options: White, Silver and Black
- All fascia orders include colour-coordinated end caps which provide a clean and uncluttered look when fascia is face mounted. (End caps are not included in reveal)
- Available in both standard and reverse roll
- Two sizes (automatically selected based on the drop of blind and thickness of fabric).
- Easy installation with snap off front cover

Fascia System

66mm Fascia Brackets

84mm Fascia Brackets
