

Kona Folding Arm Awnings

Recommended Installer's per Install

Kona Folding Arm Awnings weigh anything between 28kgs to 115kgs (depending on model, width, projection and add-on extras)

While a general awning will require 2 people to install, please use the below table as an overview of recommended number of man power to install safely:

Kona Origin, Design, Rise and Cross-Over Weight (kilogram) per width and projection

Width (m)		3.0	3.5	4.0	4.5	5.0	5.5	6.0	6.5	7.0
Projection	1.6m	27.5	35.5	45	47.5	51.5	53.5	57	67.5	71.5
	2.0m	29.5	37.5	46.5	49	53	55.5	59	59.5	73
	2.5m		40	48.5	51	54.5	57.5	61.5	72.5	75.5
	3.0m			50.5	52.5	56.5	59.5	63	75	78
	3.5m				54.5	58	62	65.5	77.5	80.5
	4.0m				60.5	64	67.5	70.5		

Note: Orange box: Recommendation to complete install using 3 people
 Red box: Recommendation to complete install using 4 people

Additional weight factors to consider:

- Hood + 3kg per metre (incl bracket and side covers)
- Classic End Brackets - 0.6kg per awning
- Beam + 1kg per metre
- Pitch Control + 0.9kg per arm
- Roller Tube 85mm + 0.7kg per metre
- Roller Valance + 4.7kg per metre
- Gear - 2kg per awning

Kona Semi-Cassette Weight (kilogram) per width and projection

Width (m)		3.0	3.5	4.0	4.5	5.0	5.5	6.0	6.5	7.0
Projection	1.6m	42.5	53	66	69.5	76	80.5	86.5	99	106
	2.0m	44.5	55	69.5	71	77.5	82.5	88.5	101	107.5
	2.5m		57.5	68	73	79	84.5	91	104	110
	3.0m			70	74.5	81	86.5	92.5	106.5	112
	3.5m				77	82.5	89	95	109	115
	4.0m				82.5	88.5	94.5	100
