Q-Motion - Gen 2
Reset Blind

Clears limits and remote control pairing

1. Press the UP button to send the blind to the full open position

2. Once at the top, press and HOLD the UP button. The blind will move 10% down then back up followed by 75% down.

3. The blind will pause at the 75% position and then begin moving in the opposite direction

4. When the shade has started moving in the opposite direction, release the UP button

5. When the blind has stopped moving, pull DOWN on the bottom bar more than 50mm

6. The blind bottom limit is now reset and any remote control pairing deleted

7. The blind will remain in pairing mode for up to 1 minute.
To re-pair the remote control, press and HOLD the UP button for 8 seconds
