Q-Motion Gen 3
Set New Top Limit

Use these programming instructions when the top limit of the blind needs to be changed

1. Select the channel on the remote the blind is paired to

2. **Press and release the UP button**
(Blind will move to the top limit)

3. **Press and hold the UP button** until the blind jogs

4. **Pull down on the bottom bar** more than 250mm
(The blind will jog in response)

5. **Adjust blinds top limit manually**
(Pull on the bottom bar to move the blind to required top limit. If the bottom bar drops too low, manually roll the fabric back up until the top limit position is reached)

6. Once you are happy with the new bottom limit, **press and hold the UP button** until the blind jogs

7. New top limit has now been set and saved
